

ANEESH NANDIGRAMI

Portfolio

Full Stack Developer

Full Stack Developer and Computer Science and Engineering student with hands-on experience building web applications, REST APIs, and responsive user interfaces using Node.js, Express.js, React.js, Java, and JavaScript. Passionate about software development, artificial intelligence, and problem-solving, with a strong interest in developing efficient and scalable solutions. Proven ability to build end-to-end applications through academic projects and self-directed learning. Continuously expanding technical skills across backend development, frontend technologies, databases, and AI/ML.

WORK EXPERIENCE

● Full Stack Developer(Academic Projects & Self-Learning) May-2025-Aug-2026

- Developed full-stack web applications using React.js, Node.js, Express.js, MongoDB, and JavaScript.
- Built responsive and user-friendly interfaces using HTML, CSS, Tailwind CSS, and React.js.
- Built responsive and user-friendly interfaces using HTML, CSS, Tailwind CSS, and React.js.
- Developed backend functionalities with Node.js and Express.js and connected applications with MongoDB databases.
- Created and managed features such as user authentication, product management, shopping cart, wishlist, and order tracking
- Developed DawaDost, a medicine e-commerce platform with frontend and backend integration.
- Built an Uber Clone application with user authentication, location services, ride booking, and fare calculation features.
- Used Git, GitHub, Postman, Vercel, and Render for version control, testing, and deployment.
- Continuously improving full-stack development skills through hands-on projects and self-learning.

PROJECTS

● FULL STACK RIDE BOOKING PLATFORM – UBER CLONE || APR2026-AUG-2026

MongoDB,Express.js, react.js,Node.js(MERN Stack) **Under Process**

- Built a full-stack ride-booking platform using React.js, Node.js, Express.js, and MongoDB, featuring user/captain registration, ride booking, fare calculation, and vehicle selection.
- Implemented real-time ride tracking and driver matching using Socket.IO, with JWT-based authentication, ride request/acceptance, OTP verification, and responsive React.js UI.

● Full Stack E-Commerce Platform – DawaDost || Sept-2025-Mar-2026

MongoDB,Express.js,React.js,Node.js(MERNSTACK)
Live:<https://dawadostfrontend-two.vercel.app/>

● Weather Forecasting Web Application || Aug-2025

HTML,CSS,javascript
Live:<https://weather-app-two-swart-79.vercel.app/>

EDUCATION

2023-2027

Elite College Of Engineering

- B-tech in Computer Science & Engineering

2021-2023

The Scottish Church Collegiate School

- Higher Secondary Education

2010-2021

The Scottish Church Collegiate School

- Secondary Education

SKILLS

- **Languages** : Java,python,javascript,SQL,HTML5,CSS3
- **Backend**: Node.js,Express.js,RestAPI
- **Frontend**: React.js ,TailwindCSS,Responsive Web Design
- **Databases**:MySQL,MongoDB
